B-RAIN 9VDC IP68

Battery Controller

DESCRIPTION

With an IP68 rating, B-Rain modules are designed for installation in a valve box. Available in 1, 2, 4 and 6 stations, they are easy to program with a Smartphone (iOS or Android).

TECHNICAL CHARACTERISTICS

- Bluetooth Low Energy Communication
- Rated IP68: 100% waterproof and fully submersible
- Waterproof and independant battery housing
- Can be installed indoor, outdoor or in available for function
- Start/Stop programmable function
- Non volatile memory will save programming in case of power failure
- 1 - 2 - 4 - 6 stations
- Master valve connection (Except for the B-RAIN 1)
- Rain sensor connection
- Bluetooth range: about 10 meters Electrical
- Works with 9V latching solenoid
- Maximum distance between the module and solenoid is 30 m with 1,5mm² wire size
- Dimensions: Width: 14cm Height: 5,5cm Depth: 9cm

APP B-RAIN

App

IOS

B-Rain is the new frontier of programming for your irrigation system!

With this free app, your iPhone / iPad / iPod touch becomes a control panel that allows you to real-time configure any irrigation program, comfortably from your hands. With the Bluetooth connection, you just have to get closer than 15 meters from the Controller B-RAIN, installed directly inside the valve box thanks to its robust and 100% waterproof body, to synchronize the scheduling of electric valves and of all other devices connected to your system.

ANDROID

B-Rain is the new frontier of programming for your irrigation system!

With this free app, your smartphone and tablet becomes a control panel that allows you to real-time configure any irrigation program, comfortably from your hands. With the Bluetooth connection, you just have to get closer than 15 meters from the Controller B-RAIN, installed directly inside the valve box thanks to its robust and 100% waterproof body, to synchronize the scheduling of electric valves and of all other devices connected to your system.

With this app you can:

- carry out a complete configuration of the durations and start times of your irrigation, divided by areas
- enable real-time manual start and stop
- check the connection level and the battery status of the Controller B-RAIN
- add the security password to connect Android devices to the Controller
- handle up to 200 Controller B-RAIN using the same account
